Optically Active Additive

Product :	A High Flash Aromatic solvent-based pigment concentrate for use as an Optically Active Additive in surface coatings.
Vehicle :	Stabilised High Flash Aromatic solvent
Pigmentation :	Unique energy retaining and light emitting inert inorganic pigment.
Solvent :	High Flash Aromatic solvent
Colour :	Pale Yellow/Green (other colours available to order)
Flash Point :	32°C
Drying time :	
Touch dry :	N/A
Hard dry :	N/A
Specific Gravity :	2.10
Appearance :	Soft Paste
Storage :	Store in cool , dry conditions away from sources of ignition.

NOTES

- 1. Always read Health & Safety information prior to use.**
- 2. This product is Non-Radioactive.**
- 3. Do not use high shear during mixing.**
